New Horizons Learning Centres

Adobe Dreamweaver CS6 - Part 1

Duration: **1 day**

Overview:

In this course, students will use Adobe Dreamweaver to create web pages while focusing on the content, styling, and design. As web pages are created, Dreamweaver will competently create the XHTML, CSS and JavaScript required.

Target Audience:

This course is most valuable for individuals who have been given responsibilities to create or maintain a website. It will also be valuable for new web designers, web developers, and graphic artists who want to extend their skills in creating complete websites.

Lesson 1: Getting Started with Dreamweaver

- The Dreamweaver Interface
- The Elements of Web Design
