

## 55238 – SharePoint Online For Administrators

Duration: 3 Days

### Overview:

This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

### Audience:

The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

### Course Completion:

- Understand the architecture of SharePoint Online
- Have knowledge of all the components in SharePoint Online
- Have on hands experience configuring the components of SharePoint Online
- Have hand on experience configuring the options

### Module 1: Introduction to Office 365 and SharePoint Online

#### Lessons:

- Introduction to the Office 365 Administration Center
- Configure Reporting
- Accessing SharePoint management tools
- Accessing security and compliancy
- Managing Office 365 and SharePoint Online with PowerShell
- Comparing on Premises SharePoint with SharePoint Online
- User identity in Office 365 and SharePoint Online
- Managing user domains
- Building Hybrid scenarios
- OneDrive and Site redirection
- Yammer redirection
- Understand hybrid search
- Hybrid business data connectivity
- Hybrid taxonomy
